

## Aluvision – Technical Design Engineer

### We're looking for

Aluvision Inc. is a dynamic and growing company that specializes in high-end aluminum design & LED solutions for booth building, events, showrooms and displays. We inspire & connect partners on their creative journey to design and build modular environments. A committed team ensures top performances for customers around the world.

We are looking for a dynamic individual who has a genuine interest in engineered and technical products. By joining Aluvision, you will become part of a fun and passionate organization that believes in innovation, investing in the future and where customer excellence is key. A company whose culture inspires collaboration among teams and departments, and believes all employees make an impact.

In this position you will report to the Director of Technical Design and your responsibilities will include:

- Work out detailed technical & production drawings
- Create 3D visualization of exhibit structures within our modular system via Autodesk Inventor
- Generate quotes based on 3D visualization within the ERP system
- Communicate across departments to collaborate on project needs
- Work closely with the account management team on technical support for customers; participate in customer meetings as necessary
- Provide input for R&D to improve or enhance product offering
- Continuous learning and development to meet the needs of the role

## Expectations

- A bachelor's degree in Engineering; Mechanical or Civil
- Experience with CAD software; Autodesk Inventor experience is a plus
- You have a good 3D understanding and a deep technical interest
- Interest in designing using a modular systems and a strong visual acuity
- Good analytical and problem-solving skills
- Ability to prioritize and manage time effectively

## Our Offer

- A culture that empowers its people, sparks innovation and is customer focused.
- Collaborative and objective driven environment that builds a cohesive team.
- A competitive compensation package in accordance with knowledge and experience
- Comprehensive benefits package: medical, dental, vision, short- and long-term disability, and life insurance.
- 401(k) plan with company match.

Apply today! Join a team where we bring the customers' vision to life.—
